PRECAUTION

- Always wear appropriate personal protective equipment.
- Keep out of reach of children.

GENERAL

- **AgraActivator™ 12** is a fertilizer with macro- and micro- nutrients for crops, pot plants, ornamental shrubs, lawn, vegetables, and fruit trees grown in hydroponic systems or standard cultivation practices.
- Foliar spraying should preferably be done during the cooler periods of the day (ideal 20 °C; < 25 °C), as well as when the relative humidity is on its highest.
- Do not apply to plants when plants are wilted or under abiotic stress.

COMPATIBILITY

- Always verify compatibility with other Agricultural products by doing a miscibility test.
- Combinations with Ca or Ca-based products should be avoided.

APPLICATION RATES

GENERAL PLANTS	APPLICATION RATE	RECOMMENDATIONS
Crops, pot plants, ornamental shrubs, lawn, fruit trees and vegetables.	Fertigation apply 1-2 g/L (Lower rate is recommended when frequent applications are made)	Apply every 1-2 weeks from emergence until the flowering growth stage of the plant. Do not exceed the nutrient requirements of the plant (as advised by an agronomist based on soil and/or leaf analysis).
Crops, pot plants, ornamental shrubs, lawn, fruit trees and vegetables	Foliar application 10-20 g/L (1-2% solution; lower rate is recommended when frequent applications are made)	Apply every 1-2 weeks from the vegetative growth stage to flowering stage. Do not exceed nutrient requirement of the plant (based on soil and/or leaf analysis)

WARNING

Although this product has been extensively tested under a large variety of conditions, the manufacturer does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal soil, climatic and storage conditions, compatibility with other substances not indicated on the label as well as by the method, time, and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, and the environment or harm to man or animal or for lack of performance of the product concerned due failure of the user to follow label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.
